

# CORTES ISLAND RECYCLING CENTRE

OPEN: Thursday to Sunday, 9 am to 1 pm

## Product Care Stewardship Program

for Paint, Paint Aerosols, Flammable Liquids, Pesticides & Gasoline

### STEP 1

To **drop off** any of these products, please go to the recycling bays and **find a staff member**.

## Flammable Liquids

### Acceptable products

Examples of products include

- Paint thinners
- Camp fuels
- Liquid adhesives.

### Maximum container size:

10 litres

9 litres for kerosene

### Flammable liquids **must have:**

The flammable symbol or have a warning such as “keep away from open flame or spark.”

All acceptable products under the flammable liquids category must be a liquid.

or

### Warning:

keep away from the open flame or spark

## Paint

### Acceptable products

- Latex, alkyd, enamel & oil-based paints
- Porch, floor & deck paints
- Interior & exterior varnishes & urethanes (single component)
- Primers, undercoats, block fillers and sealers
- Marine enamels (except anti-fouling paint & paint with pcp numbers — treat as pesticides)
- Wood finishing oils, stains & shellac
- Latex (acrylic) driveway sealer
- Rust paint, decorative metal paints
- Fence, barn & swimming pool paint (single component)
- Wood and masonry water repellents
- Paint aerosols of all types, including automotive and industrial paint products

### Maximum paint container size

23 L (5 gallons)

### Limit

10 paint containers per visit

50 aerosol cans per visit

## Gasoline

### Acceptable products

This program accepts leftover gasoline products from such uses as lawnmowers, gas driven boats and other spark ignition engines. Caps & spouts on the containers should be checked to ensure they are properly sealed. Plastic wrap, paper, or things like shrink wrap covering the spout or cap is not acceptable.

### Warning:

**Gasoline is extremely flammable!**

### Maximum container size

25 litres

### All gasoline products **must be**

returned in a properly sealed ULC approved container.

Do not transfer gasoline from one container to another as it poses an extreme fire hazard, environmental impact from potential spillage and a health & safety concern from the fumes.

# Pesticides liquids & solids

## Acceptable products

Pesticides accepted under this program may be in a solid form or liquid form. They include such things as

- Weed killers
- Wood preservatives
